SKILLS

React.js · Redux · JavaScipt · React Native · Expo React Native · HTML · CSS · CSS-Grid · Flexbox · Bootstrap · AutoCad · Next.js · TypeScript · TailWind · Headless UI · Apollo Studio · GraphQL

PERSONAL PROJECTS

Travel App (10/2023 - 11/2023)
- this React Native application serves as a comprehensive travel companion with a primary focus on location exploration using an external API. The app dynamically generates fictional excursions based on identified locations
- I used React Native, Expo, API

Reinterpreted GitHub (07/2022 - 07/2022)
- a project based on the database provided by GitHub. I tried to reproduce as many functionalities as possible from those found on the GitHub website
- I used React Native, Redux, Tailwind and other small libraries

Math Sprint Game (03/2022 - 04/2022)
- a project who highlights the usage of timing events as well as procedurally generating random, correct or incorrect, math equations
- I used HTML, CSS, JavaScript
